### WISDOM FOR THE WEEK:

Think what you do when you run in debt: you give to another power over your liberty.... It is hard for an empty bag to stand upright.

Benjamin Franklin

MoNdAy FuNnIeS:

Only if you have received all of these chain letters will you get the whole joke.... (and I have received every one... several copies of each.... from friends) But it is a really funny story to those of us who have received every single one of them.....

(Contributed by Greg Gay.... Thanks Greg)

I know this guy whose neighbor, a young man, who was home recovering from having been served a rat in his bucket of Kentucky Fried Chicken (and by the way this IS a true story.....) so anyway, one day he went to sleep and when he awoke he was in his bathtub and it was full of ice and he was sore all over. When he got out the tub he realized that HIS KIDNEYS HAD BEEN STOLEN and he saw a note on his mirror that said "Call 911!" but he was afraid to use his phone because he had just dialed #90 after a caller asked him to so now they

had access to his long distance and besides that, his phone was connected to his computer, and there was a virus on his computer that would destroy his hard drive if he opened an e-mail entitled "Join the crew!"

He knew it wasn't a hoax because he himself was a computer programmer who was working on software to save us from Armageddon when the year 2000 rolls around. His program will prevent a global disaster in which all the computers get together and distribute the \$250 Nieman- Marcus cookie recipe under the leadership of Bill Gates (It's true--I read it all last week in a mass e-mail from BILL GATES HIMSELF, who was also promising me a free Disneyworld Vacation and \$5,000 if I would forward the e-mail to everyone I know).

The poor man then tried to call 911 from a pay phone to report his missing kidneys, but reaching into the coin-return slot he got jabbed with an HIV-infected needle around which was wrapped a note that said "Welcome to the world of AIDS."

Luckily he was only a few blocks from the hospital--the one, actually where that little boy who is dying of cancer is, the one whose last wish is for everyone in the world to send him an e-mail and the American Cancer Society has agreed to pay him a nickel for every e-mail he receives. I sent him two emails and one of them was a bunch of X's and O's in the shape of an angel (if you get it and forward it to twenty people you will have good luck but ten people only will give you OK luck and if you send it to less than ten people you will have bad luck FOR SEVEN YEARS!)

So anyway the poor guy tried to drive himself to the hospital, but on the way he noticed another car driving along without its lights on. To be helpful, he flashed his lights and was promptly shot as part of a gang initiation.

And its a little-known fact that the Y1K problem caused the Dark Ages.

Make it a wonderful and happy week!!!!

The happy friends in your life,
