Wisdom For The Week:

Why is it that we often don't have time to do it right the first time, but we can always find time to do it over again?

A man's skills with do-it-yourself home repairs were at best mediocre. After spending several evenings trying to fix a leak in the bathroom, he finally admitted defeat and called a plumber, who finished the job in ten minutes.

Watching him put away his equipment; the man's son asked what had been the problem. "Well," the plumber replied, "your father got hold of some tools."

Make it a wonderful and happy week!!!!

The happy friends in your life,
