#### QUOTE OF THE YEAR

"The shortest distance between a problem and a solution is the distance between your knees and the floor. The one who kneels to the Lord can stand up to anything."

#### The Back Woodsman and the Elevator

A back woodsman and his boy were visiting a mall for their first time. They were amazed by almost everything they saw, but especially by two shiny, silver walls that could move apart and then slide back together again. The boy asked, "What is this, Father?"

The father (never having seen an elevator) responded, "Son, I have never seen anything like this in my life, I don't know what it is." While the boy and his father were watching with amazement, a sickly looking elderly lady in a wheel chair rolled up to the moving walls and pressed a button. The walls opened and the lady rolled between them into a small room. The walls closed and the boy and his father watched the small circular numbers above the walls light up sequentially. They continued to watch until it reached the last number and then the numbers began to light in the reverse order. Finally the walls opened up again and a gorgeous, voluptuous 24-year-old blonde woman stepped out.

The father, not taking his eyes off the young woman, said quietly to his son, "Go get your mother."

Make it a wonderful and happy week!!!!  
The happy friends in your life,
