## MoNdAy FuNnIeS

(Contributed by John Bernhard.... Thanks John)

There was this rich man from New York visiting Texas in his Roll Royce. A man from Texas, driving a Volkswagen Beetle, pulls up next to a guy in a Rolls Royce at a stop sign.

Their windows are open and he yells at the guy in the Rolls, "Hey, you got a telephone in that Rolls?" The guy in the Rolls says, "Yes, of course I do."

"I got one too... see?" the Texan says.

"Uh, huh, yes, that's very nice."

"You got a fax machine?" asks the Texan.

"Why, actually, yes, I do."

"I do too! See? It's right here!" brags the Texan.

The light is just about to turn green and the guy in the Volkswagen says, "So, do you have a double bed in back there?"

The guy in the Rolls replies, "NO! Do you?"

"Yep, got my double bed right in back here," the Texan replies.

The light turns and the man in the Volkswagen takes off.

Well, the guy in the Rolls from New York is not about to be one-upped, so he immediately goes to a customizing shop and orders them to put a double bed in back of his car.

About two weeks later, the job is finally done. He picks up his car and drives all over town looking for the Volkswagen beetle with the Texas plates. Finally, he finds it parked alongside the road, so he pulls his Rolls up next to it. The windows on the Volkswagen are all fogged up so he knocked on the window.

After a long time, the man in the Volkswagen opens the window a crack and peeks out.

The guy with the Rolls says, "Hey, remember me?"

"Yeah, yeah, I remember you," replies the Texan, "What's up?"

"Check this out... I got a double bed installed in my Rolls."

The Texan exclaims, "YOU GOT ME OUT OF THE SHOWER TO TELL ME THAT?"

## Consumer Tips

In the year 2006 all vendors will have to start putting the % of Trans Fat (Hydrogenated Oil) on the food packaging. The FDA says that there is no safe level of Trans Fat for human consumption. Right now Fruit O Lay is the only company that has made an effort to let you know how much is in their products. If you would like to know before 2006, you can tell

by looking at the ingredients. If Hydrogenated Oil is one of the first three ingredients listed you might consider picking something else.
