An exasperated mother, whose son was always getting into mischief, finally asked him "How do expect to get into Heaven?" The boy thought it over and said "Well, I'll run in and out and in and out and keep slamming the door until St. Peter say's, "For Heaven's sake, Dylan come in or stay out!"

## ConsumerTipS

Have you ever tried to sand something small and get frustrated because you can not hold the sand paper? It keeps slipping out of your fingers. Here are a couple of things you can do. First you can fold the sand paper in half a couple of times so the rough sand papers folded against its self and also is then exposed to your fingers. But better yet, just put on some rubber gloves. Then the latex gloves will stick to the slick sand paper backing and no more slipping.

Just a note: While we were out driving around yesterday, I saw a little advertising sign along side the road near Arlington, Washington that said, "PROFESSIONAL MOLE TRAPPING WORKS. Call xxxxx". I was so tempted to go back and put up a little sign by it that said, "Cordell Vail's secret recipe kills moles cheep and is guaranteed to work or your money back. Call xxxx!" Maybe I could get rich here. If some one called me, I could just stop in the gas station on the way to their place and buy some Juicy Fruit gum, charge them \$5 and they would never know what I used...ha ha ha
