## Wisdom For The Week :

The Lord does not ask about our ability,  
Nor our inability,  
But only about our availability.  
And if we prove our dependability,  
The Lord will take care of our capabilities.

Neal A. Maxwell

It is all in how you understand it.....

A Polish man married a Canadian girl after he had been in Canada a year or so and, although his English was far from perfect, they got on very well. Until one day he rushed into a lawyer's office and asked him if he could arrange a divorce for him- "very quick." The lawyer said that the speed for getting a divorce would depend on the circumstances and asked him the following questions:

LAWYER: Have you any grounds?

HUSBAND : JA, JA, acre and half and nice little home, 3 bedrooms.

LAWYER "No," I mean what is the foundation of this case?"

HUSBAND: "It made of concrete, brick and mortar," he responded.

LAWYER: "Does either of you have a real grudge?"

HUSBAND: "No," he replied, "We have two-car carport. Don't need grudge.

LAWYER: "I mean, What are your relations like?"

HUSBAND: "All my relations in Poland."

LAWYER: "is there any infidelity in your marriage?"

HUSBAND: "Yes, we have hi fidelity stereo set &DVD player with 6.1 sound. We don't all the time like the music, but I answer yes.."

LAWYER: No, I mean does your wife beat you up?

HUSBAND: NO, I always up before her.

LAWYER: WHY do you want this divorce?

HUSBAND: SHE going to kill me.

LAWYER: What makes you think that?

HUSBAND: I got proof.

LAWYER: What kind of proof?

HUSBAND: She going to poison me. She buy a bottle at the drug store and put on shelf in bathroom. I can read it says, "Polish Remover."

## Consumer Tips

There has been a lot of talk about computer protection lately. You have probably realized that just having Anti-Virus software is not enough. So here is what I am finding most of the experts are recommending in addition to Anti-Virus software and where you can get free copies. 1. SPYWARE remover 2. ADWARE remover and then 3, FIRE WALL (note if you are running

Windows XP with service pack 2 you don't need a fire wall. It is built in). I have two Anti-Virus programs running on my computer all the time and a fire wall and I still find SPYWARE and ADWARE that I have to remove every week. When I don't, my computer gets slower and slower as they extract information from me and finally my mouse starts to hang as I move it. Sound familiar? If it does try removing the ADWARE and SPYWARE from your computer. (If you don't know what these terms mean, go to a search engine and look them up)

Heres the places to go to get those three packages for free:

For ADWARE - The most recommend is AD-AWARE

<http://www.lavasoftusa.com/support/download/>

For SPYWARE - The most recommend is SPYBOT

<http://www.spybot.info/en/download/index.html>

FREE FIRE WALL - The most recommended is ZONE ALARM

[http://www.zonelabs.com/store/content/company/products/znalm/freeDownload.jsp?lid=staticcomp\\_za](http://www.zonelabs.com/store/content/company/products/znalm/freeDownload.jsp?lid=staticcomp_za)

(MAKE SURE YOU GET THAT WHOLE THING ON ONE LINE)

Firewalls are frustrating to use at first if you don't know how to use them because when ever anything tries to access your computer you have to teach the firewall what is good and what is bad. Trouble is when it tells you 109.91.99.0.1 is trying to access your computer if you don't know what that is then you lock out something that is good. But you can undo it if it was wrong. Better to say no than take a chance. Then it will just ask you again later. But don't go another day without a fire wall if you don't have one... OR YOU WILL BE SORRY!!!
