Wisdom For The Week :

Unless you have been in a foreign country for an extended period, I doubt you could actually fully realize the freedom that we enjoy here in the United States. I had to laugh when all those people said they were going to Canada if President Bush was elected. Even if you don't like the current President, where can you go to find more civil liberty, better medicine, more competent doctors, more healthy food, a stronger and more stable military to protect us, more reliable police and fire crews, even cheaper gas for your car, cleaner water, less political corruption, more dependable mail service and well the list goes on and on.... EVEN CHEAPER TAXES. I don't see the roads here in Seattle going past my house to Canada being flooded with people leaving the country, but there sure seem to be a lot coming the other way at every port of entry. Oh how grateful I am to have the privilege to live here in these United States and to be able to proudly say that I had an opportunity to serve my country to try to help establish that freedom for others. Happy 4th and GOD BLESS AMERICA.

Consumer Tips

Wow... I actually saw a real mole. Our neighbors caught one... and it was laying on his porch. With all the advice I have given so many people on how to get rid of moles in your yard I had never actually seen one. They are not much bigger than a house hold mouse. In fact they look very much like a mouse except their front feet are little claws..... Now if you want to get rid of moles send me \$100 (in cash) and I will give you my fool proof way to get rid of them... REALLY... I should cut it up into little

strips to disguise it and sell it as a secret formula. No one would dare eat it to know what it really was..... I could get rich...

AND YES THEY CAME BACK FROM OUR BACK NEIGHBORS' YARD. I saw the first hole in my next door neighbors yard right by that back fence as I was helping him mow his lawn. I did not think much of it. It was clear back by his back fence and I did not have time to "FIX THEM" so I just told him and forgot about it. In 2 weeks there were holes clear around his yard past his garage and near my yard. So I took action and went to the store and bought a "3 PACK" of my secret formula and in one week... ta da... no more moles in his yard and **NOT ONE IN MY YARD**

Maybe it was the cats who stopped them ha ha ha

Moles come out of their holes at night to eat Crane Fly eggs in the grass. (We used to call Crane Flies Texas Misquotes when we were kids). That is how the cats catch the moles. The local people say if you get rid of the Carne Flies in your yard you will also get rid of the moles (but I never heard them give any non toxic way to get rid of the Crane Flies)... so back to my "SECRET 3 PACK" formula....

If you don't think this works go look at the pictures of "HORSE SHOE LAKE PARK" on my web page at www.molesbegone.com
