## INTERNATIONAL THINKING

Question: What is the truest definition of Globalization?

Answer: Princess Diana's death.

Question: How come?

**Answer: An English princess with an Egyptian boyfriend crashes in a French tunnel, driving a German car with a Dutch engine, driven by a Belgian who was drunk on Scottish whisky, (check the bottle before you change the spelling) followed closely by Italian Paparazzi, on Japanese motorcycles; treated by an American doctor, using Brazilian medicines.**

**This is sent to you by an American, using Bill Gate's technology, and you're probably reading this on your computer, that use Taiwanese chips, and a Korean monitor, assembled by Bangladeshi workers in a Singapore plant, transported by Indian lorry-drivers, hijacked by Indonesians, unloaded by Sicilian longshoremen, and trucked to you by Mexican illegals.....**

**That, my friends, is Globalization.**

~~~~~

(And this one contributed by Karen Teuscher.... Thanks Karen)

The couple had been debating the purchase of a new auto for weeks. He wanted a new truck. She wanted a fast little sports-like car so she could zip through traffic around town. He would have settled on any beat-up old truck, but everything she seemed to like was way out of their price range.

"Look !" she said. "I want something that goes from 0 to 200 in 4 seconds or less. And my birthday is coming up.

You could surprise me."

For her birthday, he bought her a brand new bathroom scale.

Services are pending

# Consumer Tips

If you keep batteries in the fridge until you need them, they will keep a lot longer

~~~~~

CONSUMER FEED BACK

~~~~~

Cordell,

If you eat bananas AND take a vitamin B-1, what happens with the mosquitos? 🤔

I appreciate your quote. I agree that the more we pay attention to spiritual promptings, the more in tune with the Spirit we become.

Have a great day,  
Lisa

~~~~~

Lisa...

What a cool email address you have now viiicowwife@ I think if you take vitamin B-1 and eat bananas at the same time you turn into a frog and then the mosquitos become your lunch... ha ha ha... I don't know. I just passed it along. I heard that mosquitos are attracted to the CO2 that you breathe out and when you put on repellent it does not drive them away but just makes you so they can not SMELL you so I don't think anything in your blood would make them stay away. Does any one know what the Vitamin B-1 or bananas in your blood stream does to keep the mosquitos away? Also I keep hearing the AVON's Skin So Soft hand lotion is still the best repellent that has ever been tried and the safest too.

~~~~~

Hello from Pakistan,

These are always fun to read, thank you. One more solution for mosquitos - get a gecko, much easier to care for than a frog - just let it run around on your walls and ceiling - and it will eat a lot of the mosquitos (I currently have about 6 geckos in

my house).

Cheers,

Bev

~~~~~

Bev

The question I have for you then is WITH 6 GECKOS, DO YOU SAVE 6 TIMES AS MUCH ON YOUR CAR INSURANCE?

Cordell

## CONSUMER WEBPAGE :-)

After all I said about the computer video game GRAND THEFT AUTO have you noticed what is in the news about it lately? I guess I am not the only one who thinks it is causing harm to children. There have been several national reports this past week on it. Go figure!
