QUICK THINKING POLITICIAN

There was a recent news article about a certain politician who was being nominated for a new office. One of the senators ask him what his stand was on Roe Vrs Wade. Not wanting to be entrapped, his answer? He said, "Well I am not sure, but I think those people in New Orleans should just get out of town any way they can"

Consumer Tips

Olden Times Missionary Tip

If you are on a trip or where you have to wash out something by hand and want it to dry more quickly here is a tip. Take the newly washed article and lay it out on a large bath towel. Then roll up the towel with the article inside it. Then "WRING" the towel in a twist as hard as you can several times. Most of the water in the washed article will absorb into the towel. This works especially well with delicate or nylon fabrics. It will also keep you from stretching the article (which can happen if you just wring it out by its self). Now take it out of the towel and hang it up to dry. It will dry in about 1/3 the time. (I learned this from Jessie Evans Smith in the MTC in 1963. I will tell you more about how to make a "KILLER" peanut butter sandwich later ha ha ha....)
