## Wisdom For The Week :

Our less than exemplary reactions to circumstances in public are seen by others as a long lasting reflection of our character.

The reason for our actions are seldom known or considered and have no long lasting retention by others, even when they are known.

Next time we feel our out bursts of bad behavior in public were justified by our reasons for doing it, we might remember that.

GLOBALIZATION AND INTERNATIONAL THINKING AT ITS BEST!

Question: What is the truest definition of Globalization?

Answer: Princess Diana's death.

Question: How come?

Answer: An English princess  
with an Egyptian boyfriend  
crashes in a French tunnel,  
driving a German car  
with a Dutch engine,  
driven by a Belgian who was drunk  
on Scottish whisky,  
followed closely by Italian Paparazzi,  
on Japanese motorcycles;  
treated by an American doctor,  
using Brazilian medicines.

This is sent to you by an American,  
using Bill Gate's technology,  
and you're probably reading this on your computer,  
that use Taiwanese chips,  
and a Korean monitor,  
assembled by Bangladeshi workers  
in a Singapore plant,  
unloaded by Sicilian longshoremen,  
and trucked to you by a Hispanic truck driver.....

That , my friends, is Globalization

## Consumer Tips

I kept dropping my cell phone. Several times the ear piece chord would catch on something and yank it out of my pocket onto the ground. I finally found the solution. At work we have these little round name badge clip-ons that have a retractable chord. So when you go into the security door, you don't have to fumble for your pass. You can just reach up and pull it out on the retractable chord and touch the security key with it. Then let go and it just pops back to your shirt like a Yo Yo. I got one and put on my phone. I have not had it hit the pavement since.
