Wisdom For  The Week :

"A friend in need is a friend in deed",
but a friend who helps with out being asked
is a ministering angell!

Science Lesson

Miss Jones had been giving her second-grade students a lesson on science. She had explained about magnets and showed how they would pick up nails and other bits of iron.

Now it was question time, and she asked, "My name begins with the letter 'M' and I pick up things. What am I?" A little boy on the front row proudly said, "You're a mother!"

Consumer TipS

Last week we told you that you can put a block of ice in front of a fan to help you keep cool if you don't have air conditioning. Now we find there is even a better way. Put some 2 liter pop bottles in the freezer. When they are frozen take them out and put them in front of the fan. **NO WATER MESS AS THEY MELT AND KEEP YOU COOL.** And when they are not cold any more, just put them back in the freezer and take out the second set (I did tell you to do a second and 3rd set didn't I?) Then you can keep using them over and over don't have to keep buying ice. (some one said it helps to put your head in the freezer too if it gets really bad. Was 120 in Phoenix last week.... That is head in the freezer weather....

Oh and by the way, it us 76 degrees here in Seattle today. Was a little too cool to go walking with out a jacket this morning... WELL I JUST HAD TO RUB IT IN... I MEAN WITH ALL THE GUFF WE TAKE ABOUT SO MUCH RAIN IN SEATTLE AND STUFF..... I'M LOVING THIS COOOOOOOOL BREEZE THAT IS COMING IN MY WINDOW RIGHT NOW... Ok.. I will lay off. Go get your frozen pop bottles.... You say it is 105 today... OUCH.. I feel so bad for you... Ahhhh the cool breeze again...
